+6281389058997 | miftahfauzy79@gmail.com | www.linkedin.com/in/miftahfauzy | https://bit.ly/My-Certificate01

Jakarta, Indonesia

Final-year literature student with a newfound passion for software engineering, specializing in front-end development. Currently diving into front-end technologies to create user-friendly web experiences. I have built web applications from designing UI/UX to the slicing process. Eager to contribute to innovative projects and collaborate with the team professionally.
